The Corbett national park is the most dwindling part of nature resisting the Himalayan foot hill & Shivalik ranges and is called the perfect tiger's land. India's first noticed wildlife sanctuary and national park, established in 1936, brings the opportunity to behold the largest tiger's population in the vicinity. Corbett remains open from mid-Nov to mid-June; the main reason for the park's closure during the rest of the year is that monsoons make most of the roads get washed away.
